REWIND

A round birthday cake with white frosting. It has chocolate decorations, including a large '9' on the front and several smaller spots above it. There are ten lit blue candles around the perimeter of the cake. A dark horizontal bar with white text is overlaid across the middle of the cake.

A large, leafless tree stands prominently in the center of a grassy field. The tree's branches are intricate and dark against the sky. The field is green with some dry patches, and a low stone wall runs across the middle ground. In the background, there are rolling hills and a few distant trees under a heavy, dramatic sky with dark, swirling clouds. A semi-transparent dark rectangle is overlaid across the middle of the image, containing white text.

WHAT IS THE GNOME PROJECT, ANYWAY?

THE GNOME PROJECT is an international community which comes together to make great software. GNOME software is [Free Software](#): all our work is free to use, modify and redistribute. Everyone is welcome to participate in its development. See [the GNOME About page](#) for more information.

WILL MY COMPUTER BE ABLE TO RUN GNOME 3?

Computers purchased in the last 3 or 4 years should be more than capable of running GNOME 3. The GNOME 3 desktop does require hardware accelerated graphics in order to provide a cutting-edge experience however, and the complete GNOME 3 experience will only be available on computers capable of this. (It is not every though: GNOME 3 will come complete with a fallback interface which will provide an excellent experience in the absence of hardware acceleration, and which incorporates many of the improvements that can be found in GNOME 3. Furthermore, the GNOME project and its partners are working hard to ensure that the complete GNOME 3 experience is available to as many people as possible, and aim to ensure that users who are initially unable to have this experience will be able to in the future.

WILL I BE ABLE TO USE MY FAVOURITE GNOME APPS IN GNOME 3?

The existing GNOME applications will work just fine in GNOME 3. GNOME 3 does provide facilities to make applications even better though, in fact not for new and improved GNOME 3 versions of these handy apps you've learnt to love.

WHAT WILL HAPPEN TO THE OLD VERSION OF GNOME?

The GNOME 2 desktop had a long life, and parts of it became difficult to maintain over that period. As a result, continued releases of the entire GNOME 2 desktop are even a practical option for the GNOME Project, and several parts of the old GNOME 2 desktop will not receive new releases after GNOME 3 is released. The traditional GNOME 2 desktop will not disappear overnight, however releases of GNOME 2 will continue to be supported by distributions for years to come.

A black and white photograph of a vintage Tower Optical Company binocular viewer. The device is a large, circular metal frame with a textured, perforated surface. It features two large eyepieces at the top, a coin slot in the center, and a small red button at the top left labeled "TURN TO CLEAR VISION". A small plaque on the left side reads "U.S. Manufactured and Distributed by THE TOWER OPTICAL COMPANY, INC. P.O. Box 251 South Norwalk, CT 06855". Below the coin slot is a small plaque that says "TO OPERATE TURN HANDLE ONE FULL TURN" with arrows indicating the direction of rotation. The number "2143" is visible at the bottom of the frame. The background shows a city skyline with the Empire State Building prominent on the right. A semi-transparent dark banner with white text is overlaid across the middle of the image.
